NEEDED:

Subject Matter Experts and Graduate Assistants for the West Virginia Evidence-Based Clearinghouse

The West Virginia Department of Human Services, Bureau for Behavioral Health's Evidence-Based Clearinghouse aims to ensure that children, youth, and young adults in West Virginia receive culturally appropriate, evidence-based prevention, treatment and recovery services in their homes, schools, and communities. This clearinghouse will provide agencies and practitioners with valuable information regarding the level of effectiveness for various interventions.

Opportunity for Subject Matter Experts and Graduate Assistants - Subject Matter Experts and Graduate Assistants will serve a critical role in the development of the West Virginia Evidence-Based Clearinghouse. Together, they will determine the research rating of all the programs listed on the website. Training will be provided. ***Financial compensation will be offered for each program reviewed.***
